

Diamond Foam Gasket tape

Technical Data Sheet

Product Description: Diamond Foam Gasket tape has a moderately strong adhesive, and carried on Brown siliconized release paper. The tape has excellent flexibility and suitable for thermal insulation & duct Gasket purpose

Product Packing

Backing	Adhesive	Color	Liner	Standard Sizes		
				W(mm)	L(M)	Rolls/Box
NBR Closed Cell Foam	Acrylic Adhesives	Black	Brown release Paper	19	10	25
				25	10	20

Custom Size can be produced as per Customer Specifications

Product Specification

Properties	Specification	ASTM Test Method
Backing Thickness	6 +/- 1.5 mm	D - 3652
Adhesion To Steel	650-700 gms / inch	D - 3330
Tensile Strength	3800 gms / inch	D - 3759
Elongation at Break	155%	D - 3579
Density	60-70 kg/m ³	D -1667
Temperature Limits	-40°C to + 70° C	

Features

- Best Result Obtained when it's applied to clean and dry surfaces.
- Low moisture content of these products makes these tapes as a good sealant,

Application:-

- Diamond Foam Gasket tape is used ideal for closed tight gasket purpose, for avoiding moisture & dust.
- Diamond Foam Gasket tape flexible, light- weight, Nitrile foam for Quality Insulation for refrigeration, air Conditioning and other applications.
- General purpose holding, patching sealing applications –indoor and outdoor.
- This tape is suitable for Cushioning Air, water and dust seals Gap-filling Surface protection Gasket production Anti-vibration.

Storage

Storage under normal room temperature and 50% RH in the original packing

Shelf Life : Use within 12 month.

Distributor: Green Moon Trading
